

Trick or Treat!

With cold weather approaching, please remember to . . .

- **Keep your thermostat at a minimum of *60 degrees* (even during times of absence, such as Thanksgiving and Christmas) to keep pipes from freezing.**
- **Remove any outside hoses from their faucets to prevent freezing.**
- **Keep clothes, furniture, window coverings and similar items away from your electrical heating elements (furnaces, boilers, hot water heaters, etc.).**

These measures will insure that your residence stays safe and comfortable all winter long! *On behalf of the Aggie Properties, LLC staff . . .*

Have a Safe and Happy Halloween!
